## BATHROOM ACCESSORIES

### INSTRUÇÕES DE MONTAGEM

1. Utilize o suporte de fixação para marcar o furo.
2. Aperte os parafusos, fixando o suporte de fixação à parede.
3. Encaixe o acessório no suporte fixado na parede.
4. Fixe o produto apertando o perno com a chave fornecida.

### ASSEMBLY INSTRUCTIONS

1. Use the fixation support to mark the hole.
2. Screw the provided screws, fixating the support to the wall.
3. Fit the accessory in the support fixed into the wall.
4. Place the product by tightening the fixing screw with the provided tool.

### RECOMENDAÇÕES DE INSTALAÇÃO

Os acessórios devem ser aplicados depois da obra estar finalizada, nomeadamente depois das pinturas e do tratamento/envernizamento das madeiras. Não devem ser utilizadas substâncias ácidas ou que contenham solventes na limpeza de pisos ou noutras partes da construção após a aplicação dos acessórios, já que a vaporização destes produtos pode provocar danos. Verifique se não existem tubagens ou cabos eléctricos na zona de furação.

### INSTALLATION RECOMMENDATIONS

Accessories should be applied after the construction ends, namely after the painting and treatment/varnishing of wood. Acidic substances or those containing solvents should not be used for cleaning floors or others parts of the building, after the installation of accessories, because the vaporization of these products may cause damage. Check that there are no pipes or cables before drilling any holes.

### LIMPEZA E MANUTENÇÃO

Para a limpeza, não deve utilizar em caso algum esponjas de aço ou lâ de vidro, pois podem depositar resíduos que formarão posteriormente pontos de corrosão. Utilize panos ou esponjas de nylon humedecidos com água e seque depois com um pano seco e macio.

### CLEANING AND MAINTENANCE

During cleaning, never use steel or glass wool sponges, as they can release residues that will later form corrosion points. Use a nylon cloth or sponge moistened with water, and then clean with a soft, dry cloth.

## BATHROOM ACCESSORIES

### INSTRUÇÕES DE MONTAGEM

1. Utilize o suporte de fixação para marcar o furo.
2. Aperte os parafusos, fixando o suporte de fixação à parede.
3. Encaixe o acessório no suporte fixado na parede.
4. Fixe o produto apertando o perno com a chave fornecida.

### ASSEMBLY INSTRUCTIONS

1. Use the fixation support to mark the hole.
2. Screw the provided screws, fixating the support to the wall.
3. Fit the accessory in the support fixed into the wall.
4. Place the product by tightening the fixing screw with the provided tool.

### RECOMENDAÇÕES DE INSTALAÇÃO

Os acessórios devem ser aplicados depois da obra estar finalizada, nomeadamente depois das pinturas e do tratamento/envernizamento das madeiras. Não devem ser utilizadas substâncias ácidas ou que contenham solventes na limpeza de pisos ou noutras partes da construção após a aplicação dos acessórios, já que a vaporização destes produtos pode provocar danos. Verifique se não existem tubagens ou cabos eléctricos na zona de furação.

### INSTALLATION RECOMMENDATIONS

Accessories should be applied after the construction ends, namely after the painting and treatment/varnishing of wood. Acidic substances or those containing solvents should not be used for cleaning floors or others parts of the building, after the installation of accessories, because the vaporization of these products may cause damage. Check that there are no pipes or cables before drilling any holes.

### LIMPEZA E MANUTENÇÃO

Para a limpeza, não deve utilizar em caso algum esponjas de aço ou lâ de vidro, pois podem depositar resíduos que formarão posteriormente pontos de corrosão. Utilize panos ou esponjas de nylon humedecidos com água e seque depois com um pano seco e macio.

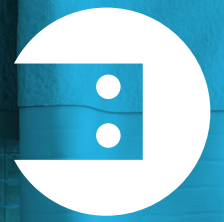

### CLEANING AND MAINTENANCE

During cleaning, never use steel or glass wool sponges, as they can release residues that will later form corrosion points. Use a nylon cloth or sponge moistened with water, and then clean with a soft, dry cloth.
